We understand that this year the Burton Hospitals League of Friends has agreed to donate gifts to the value of over £70,000 for the benefit of both patients and staff during 2010. We are both extremely grateful for your extraordinary generosity, without which many of these items could simply not have been afforded in the present financial climate.

We would particularly like to thank the League this year for your tremendous support for the Scanner Appeal. The latest total reached is £410,000 towards our target of £ ½ million by the end of April. There is still a long way to go in the short time remaining but we would not have got this far without the League's unstinting contribution.

We know that none of this money would be collected without the dedicated efforts of all the members of the League of Friends and we are truly grateful. We are also truly grateful for the efforts of those members who simply bring good cheer to our patients in their time of need – not least the team at Phoenix Radio.
